# THE ONLY SMALL SQUARE BALERS WITH CENTER-LINE

Now Available  
**0%**  
 For 60 months\*  
 Hurry In & Save!

AGCO Hesston takes small square baling in a different direction than anyone else... in a straight line. From the time hay enters the wide, low profile pickup until it drops out the back as a uniformly dense bale, the crop follows a straight path. There is nowhere else for precious leaves to go but straight into the bale.

- Center-line design eliminates right-angle turns for the crop that shake or tear valuable leaves from the stems.
- High-maintenance cross-conveying mechanisms, still found in many balers, are eliminated.
- Low-profile pickup doesn't have to lift crop as high as on competitive models.
- Tows narrower than competitive conventional designs – even when they are in transport position!
- Hay is gently fed into a prepacker chamber, where each flake is preformed.

Find out for yourself how forward thinking at Hesston can make you more efficient, productive, and profitable. Talk to us today.

\* Offer expires June 30, 2010. Offer valid only on selected HT and HU serial-numbered hay tools. With approved credit from AGCO Finance, LLC. Down payment required. Leases and balloon payments available at slightly higher rates. This offer is time sensitive and may change without notice. See your participating dealer for details.

For over 8 decades, America's farmers have counted on the little red tractor from Case IH, the FARMALL compact tractor, to help them make short work of their demanding chores. Well, they aren't just for farming anymore! Seven models with horsepower ranging from 31 to 60, smooth and simple-to-operate CVT and hydrostatic transmissions, plus an army of attachments, can tackle every chore on your to-do list, from hauling and mowing to loading and towing, and then some.
